

LOYAL L-25 PVC ADDITIVE

DESCRIPTION

Product Name :

Product Name	Contact us
Product Code	L-25
Product Origin	China
Product Weight	1
Product Type	T/T,L/C,D/P
Product Lead Time	3days--7days

Product Name :

LOYAL L-25

DESCRIPTION

LOYAL L-25 - is a high performance PVC additive used for stabilizing PVC products against heat, light, and oxygen. It is suitable for a wide range of PVC applications, including pipes, profiles, and sheets. The product is available in various grades and quantities to meet different customer requirements.

TECHNICAL DATA

The following table provides technical data for the LOYAL L-25 PVC additive. The data is based on the product specifications and may vary slightly depending on the manufacturing process and the specific application.

LOYAL L-25

Property	Unit	Value
Appearance		White powder
Particle Size		100-200nm
Stability		92°
Density	g/cm ³	1.45-1.55g/cm ³
Moisture Content	%	24-30

LOYAL L-25
